NEW CITY HOSPITAL CONTRACT

Pathological Institute Building to Cost \$39,046. The contract for the construction of the

building for the Pathological Institute at the new tity Hospital was let yesterday to the Broderick-Wind Engineering and Construction Company on a bid of \$29.066 Ms other bids were opened.

The original appropriation for the construction of the institute was \$35.00, but when Doctor Snodgrass, City Bacteriologot, returned from Germany, where he had been studying foreign methods relative to germs, he recommended that certain changes he made and apparatus installed. This extra outlay was deducted from the furnishings account.

Insular Bureau Officers Declare Yellow Plague Is Not Serious. but Number of Refugees Is Not Diminished.

Wyatt Building, 18th and F Streets. Washington, May 12.- The flight from the Isthmus of Panama on account of the presence of yellow fever has partaken of a serious nature, although Insular Burenu officers soo no reason for serious alarm, and say they are relieved by reports furnished by Colonel Gorgas, the Acting Governor of the canal zone.

It is admitted that the fever has gained a foothold, and preparations are being made to conduct the campaign against the disease with renewed vigor. It is believed that it may be stamped out.

Colonel Gorgas sends the following list of patients in the hospital at Panama: T. C. Aubrey, Gestave Newbury, Mike Doty, A. E. Bennors, T. J. Butler, H. Carrington, N. M. Barrett and A. Philipots, all in the employ of the Commission. Also

ton, N. M. Barrett and A. Philpots, all in the employ of the Commission. Also Charles Leask, employed in the installation of the Aucon Hospital Laundry, and Robert Stewart, Crusette Perlaine and John Wickham, nonemployes.

Theodore P. Shonts, the chairman of the Commission, and Judge Magoon, Governor of the Canai Zone, will start for the isthmus May 15. On arrival there they will confer with Colonel Gorgas regarding the fever outbreak.

The stemmer Allianca is due in New York in a few days from Panama, crowded with refugees from the isthmus, mostiy employes of the Commission.

On board the Allianca is General Davis, who was so seriously ill when he left Panamana that he is hardly expected to survive the voyage. The dead body of Auditor West, who died of yellow fever, also is on hoard.

Refugees who came on the Seguranca, which reached New York yesterday, tell stories of gross mismanagement, and complain bitterly that conditions under which they were to work on the Isthmus had been misrepresented to them. They say they were either forced to live in squaior and filth or sleep in tents on the grass.

Doctor McAlister of Missouri University Predicts Shortage. REST BLAC SPECIAL. Columbia, Mo., May 12-Doctor A. W.

McAlbeer, dean of the medical department of Missouri University, to-day declared to one of his classes that there is a prespect of a shortage of physicians in the United States.

the United States.

The higher entrance requirements by medical schools and the lengthening of medical schools and the lengthening of medical courses to four years, backed by rigid State Board examinations, has caused the shortage.

An examination of the enrollment of leading medical colleges show a remarkably small attendance, said Doctor Mc-Allster. Columbia University Medical School has but hinely-seven students in the first year medical class; Cernell, 57; St. Louis University, 52, and the University of Missourt, 53.

It is evident that the supply of new recruits will not fill up the ranks of the profession as depleted by the death and disability of old practitioners, said the dean, and the time may come when many persons will be compelled to be their own doctor.

DONATES TO STUDENTS' FUND.

A. M. Jones Gives \$15,000 for Building at Missouri University. REPUBLIC SPECIAL.

Columbia, Mo., May 12-A. H. Jones, a wealthy farmer of Hallsville, near Columbia, to-day announced his decision to donate \$15,000 to the Student Social and Renate 15.000 to the Student Social and Religious Building Fund of the university.
The gift is made without condition and
will insure the erection of the building,
which will serve as a student clubboure
and a meeting place for the various student organizations.
The fund, which amounts to \$80.50, has
been raised by the Young Men's Christian
Association, under the direction of Phul
Super of St. Louis, the general secretary.
The total cost of the building will be
Eacon.

REPORTS UN CROP PROSPECTS TEND TO STIMULATE WHOLESALE TRADE

Rains and Cold Weather Inter- | General Wall Street Decline Not fere With Retail Busi-

New York, May 12 -Bradstreet's to-

New York, May 12—Bradstreet's tomorrow will say;

Wholesale trans for fall delivery has been
simulated by good public and private reports
as to winter wheat, but heavy rains or contiminately cool weather have interfered with retail trade, except in a few sections, and unquestionably retarded corn and cotton planting,
which appears to be one to two weeks late.

Spring which seesing, however, has been finsisted, and the increased acreage helped by
abundant melature has had a good start. The
from trade displays increased quiet in the
druder forms, with price concessions offered,
inger edisplay a holded tendency.

Strikehed trade reports are good because of
large orders previously booked, and owing to
the receipts of additional good orders for mile
and structural material. The building trades,
as heretofure, offer an immense outlet for lumfor, harnware and building materials generally
failwar tennage in April fell concewnate behind
March, but the gain in earnings over April,
1981, is fully \$7 per cent. Trade on the Facilic
Coast is of a between-sensors character at
wholesale. Reports from the South are maintained. Eastern trade centers report rather
favorable.

The improvement in cotton goods is more

MAY-POLE PARTY GIVEN AT HUMBOLDT SCHOOL

Children in Smoky, Crowded Distric Enjoy Wealth of Flowers-Blossome Distributed.

The Humboldt Kindergarten gave a May-Day party at the School, Third street and Russell avenue, yesterday merning, from 10 to 12 o'clock.
The Humboldt School is located among the factories of South St. Louis, where

even a blade of grass is treasured. There is no room for itees and flowers in that district, and even if there was room for them to grow they could not live in the smooth and they could not live in the year with a large May pole all decked with beautiful flowers and they sing songs and play gimes and are happy because it is the one day in the year when they can have flowers for their very own. Yesterday their May pole measured twenty feet high. It was the largest one they ever had. The base was banked with large poonles and honeysuckles, columbine, fleat-de-lie, snowballs and roses. A host of other old-fashioned flowers that grew in Kirkwood decorated the pole. There are 12s children in the kindergarten at the Humbolt School, and they all kinde buskers three inches aquare and one buch high and the teachers filled them with carnations and ferns for the children to take home to their mothers and fathers. s no room for trees and flowers in that

Far Reaching in In-

New York. May 12-R. G. Dun & Co.'s Weekly Review of Trade to-morrow will Eay:

and uneven distribution of moisture prevents crop prospects from attaining an ideal position, but the general result is much better than normal, and far more satisfactory than at this time in 1904. Mercantile payments are fairly prempt, maney is easy and abundant, while confidence in the future is the ruling

while confidence in the future is the ruling sentiment.
The decline in Wall street to the lowest average for the sixty that active railway recurities either last January has had no perceptible influence on business, and ruliway earnings continue to make favorable comparisons with hist year's figures, the early returns for April showing a gain of \$7 per cent.

Manufacturing activity is unabated, the leading industries reporting a minimum percentage of litle machinery, and ing-from positions in expected to establish a new record of more than 1,00,000 tons for the current month. Pereign commerce has again shown an increase at this port over the same week last year, imports the interval of a between sensors character at wholesale. Reports from the South are maintained. Eastern trade centers report rather favorates.

The improvement in cotton goods is more marked at New England points. The Leatern thee and leather trades report intervals at a summer of the angles of the week in the week last year, imports the and leather trades report increased sales at the businer prices ruling. The weel markets are very high, and at the West exclinemen relays, with sales of wood on the sheeps' tack beinging prices be higher than the Eastern level. The respections of the advance in not maked are giving concern to the manufacturing trade.

Business failures for the week ending May 11 member 18, acainst 181 in the week. 20 in the like week in 1981, 182 in 1981, 180 in 1971 and 182 in 1881. In Canada failures for the week number 18, acainst 181 in the week. 20 in the like week in 1981, 182 in 1981, 180 in 1971 and 182 in 1881.

After the salmantation of the special sales a line week a degreese in activity for the dry land week a degreese in activity for the dry After the stimulation of the special sales had work a degreese in activity for the dry goods market was to be expected. In the primary markets for colone a few bucers still purchase for discent delivery, but as a rule operations are again confined to current requirements. The actuations are material strengthess weekens, in which displicate business afrives more freely.

Failures this week in the United States are 197, against 22 last week and 25 the corresponding week last year.
